News and Notes of the Golfing World

Fix Course at Meadow Park

Will Also Install Starting System
This Summer to Care for Large Crowds

By Bill Noonan

The coming golf season will be one of the most important in the history of Meadow Park. This prediction was made by W. F. Jowders, owner of the course, Mr. Jowders who has long been interested in the improvement of the course, is now readying it for the season by installing a new starting system.

Changes on the course that will be made include:
1. The installation of a new starting system, which will make the course more attractive to golfers, especially on the days when the weather is not suitable for playing.
2. The new starting system will also allow for better control of the ball, making it easier for golfers to get their shots in order.
3. In addition, the course will be better maintained, with regular watering and fertilizing, to ensure that the grass is always in top condition.

Golf Links at Camp
Leaves to Be Ready Within Short Time

The new starting system will be ready within a short time. This will allow golfers to play on the course as soon as it is dry, and will ensure that the course is always in top condition.

The new course will be a great improvement, and will attract many new golfers to the course. It is expected that the course will be open for business within a few weeks.
