MINUTES OF REGULAR MEETING
BOARD OF PARK COMMISSIONERS
November 25, 2019

PRESENT: Aaron Pointer, President
Tim Reid, Clerk
Andrea Smith
Erik Hanberg

ABSENT: Jessie Baines

IN THE CHAIR: President Pointer

PLACE: Metro Parks Tacoma District Headquarters

FLAG SALUTE: Commissioner Smith

STUDY SESSION QUARTERLY FINANCIAL UPDATE
Erwin Vidallon commented District-wide total all funds are showing a favorable year to date combined variance of about $2.5M. Pie charts illustrating all funds of revenue and expenditure distribution through September 2019 were reviewed. Mr. Vidallon commented that for the most part all funds, revenue and expenditure are tracking close to budget.

A general fund summary table was then reviewed. Mr. Vidallon pointed out there is a favorable variance of about $345,000 however, total revenue earnings are below budget through the 3rd quarter. Staff continues to monitor that short fall and adjust expenses accordingly. Property tax and sales tax graphs were then reviewed; both are tracking closely with what has been forecasted in the budget.

Within the department of Strategy and Governance property tax revenues is off but is typically driven by timing of when property taxes are paid and distributed to agencies by the County. Expenditures are favorable compared to budget due to position vacancies.

Mr. Vidallon commented that in the Business & Innovation Department revenue earnings in marketing rights and sponsorships are below budget by $500,000. He noted that significant efforts continue to try to make up ground the remainder of the year, including managing expenses, including adjustments for 2020.

Staff stated that within the Parks & Recreation Department total revenues earned to date are favorable. However, eared revenue is down primarily due to membership and admission dues and program fees trending short of projection. Parks and Recreation staff are continuing to monitor this closely and have adjusted expenses by not filling vacant positions.

The Planning and Development Department continues to hold a favorable position due to unfilled positon savings and revenue earnings from purchase card rebates.

3rd quarter total for ZEED funds is showing a favorable position by approximately $1.9 million combined total variance to date. Of that, $2.2 million is related to revenue earnings above year to date projection. Mr. Vidallon stated that sales tax collection continues to be ahead of budget at Trek and earned revenue at the Zoo are the big contributors to the favorable variance. NW Trek is reporting earned revenue down as compared to budget mostly due to admissions.

Mr. Vidallon then spoke about the Marina noting that it has not been able to catch up since the no salmon fishing in “Area 11”, which is the area from Commencement Bay to Narrows Bridge to the northern tip of Vashon Island. Also, crab season never opened for the 2nd straight year.
As a result, retail sales, rentals and launch fees continues to be negatively affected. Expenditures to date at the Marina are in line with budget.
At the Meadow Park Golf Course all current revenue earnings continue to trend well above 2018 actuals and 2019 projections. Also, as expected, the driving range improvements continue to pay dividends resulting in an increase in revenue earnings compared to budget to date. Golf rounds, driving range and merchandise sales surpassed their full-year projection. In addition, all offered adult and youth golf programming continue to sell out as they become available.
Within the area of the capital spending, the District has spent approximately $7.2M of the total fiscal year budget. Staff stated that through the 3rd quarter the District continues to transition to smaller projects.
Mr. Vidallon commented that the local economy outlook remains stable and is leveling out. Staff will remain disciplined in spending as earned revenues trend downward in some areas. Staff plans to reset work plan and associated 202 budgeted as well as revised revenue and expense forecast.

REGULAR MEETING
The regular meeting of the Metropolitan Park District Board of Park Commissioners was called to order by president Pointer at 6:00p.m.

SPECIAL PRESENTATIONS  TACOMA PUBLIC SCHOOLS PROP. 1
School Board President Scott Heinze and TPS Communications Director Dan Vopel were introduced to the Board. The purpose of the presentation is to share facts and information about Proposition 1, the upcoming construction bond on the February ballot. Mr. Heinze remarked that bonds require a 60 percent + 1 yes vote.
Mr. Heinze commented that if this measure passes in February it will provide neighborhood school improvements and safety upgrades in nearly every school in Tacoma.
Mr. Vopel commented that this bond will replace or provide major renovations to 8 schools whose average age is 69 years old. He further noted that school safety, security and health upgrades will be addressed. In addition, basic improvements such as flooring, masonry, lighting, windows and technology upgrades will also be part of the proposed bond package. Mr. Vopel pointed out the many field, play areas and athletic facility upgrades are also included in the package. He stated that the school district has been working with Metro Parks and other community partners to develop this package so as to bring benefit to the entire community. This bond package will go to the voters for approval on February 11, 2020. Mr. Vopel stated that the proposed bond is $535 million over 25 years, noting that this would result in about $6.79 per month is the average increase to the average home.
